PROFESSIONAL SUMMARY

Creative Web Developer skilled in HTML, CSS, JavaScript, React, and Tailwind CSS. Completed a hands on course by MEST and Generational Ghana. Passionate about clean code, problem-solving, and building responsive, user-friendly websites that meet real user and business needs.

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6+), Git, GitHub
- React.js, Tailwind CSS, React-i18next
- Responsive Design, Flexbox, CSS Grid, Font Awesome

EXPERIENCE

Frontend Developer   Freelancer   May, 2025 – Jul 2025
- Designed and built responsive websites using React and Tailwind CSS
- Worked with clients to understand needs and build solutions
- Ensured performance and browser compatibility

PROJECTS

1. **Advertisement Website (Full Stack, Multilingual)** *Link: https://deeconnect.netlify.app/*
   - Built a full-stack ad platform using React, Tailwind CSS, and React-i18next.
   - Features include multilingual support, user interaction, and a dynamic interface.
   - Deployed using Netlify/Vercel with API and state management integration.

2. **Library Management App (Full Stack, Multilingual)** *Link: https://libapp2.netlify.app/*
   - Developed a multilingual library app using React, Tailwind CSS, Node.js, and MongoDB.
   - Included CRUD operations, book browsing, and user interaction.
   - Used React-i18next for language switching and responsive design techniques.

3. **Event Hive (Frontend Only)** *Link: https://event-hive-alpha.vercel.app/*
   - A modern event listing web app built with React and Tailwind CSS.
   - Designed to be fully responsive with a clean UI for browsing and managing events.

4. **FoodFun Website** *Link: https://darling-zabaione-476212.netlify.app/*
   - A responsive website developed with HTML and Tailwind CSS.
   - Includes user-friendly forms, mobile-first design, and interactive layout.

5. **Fashion Website** *Link: https://sandrafashion.netlify.app/*
    - Created a sleek, responsive site showcasing fashion products using HTML and Tailwind CSS.
    - Focused on layout design and styling with clean visuals and structured sections.

6. **From Validation** *Project Link: https://myformvali.netlify.app/*
    - Developed a standalone form validation component using HTML and Tailwind CSS.
    - Included custom validation logic for inputs, focusing on usability and UI clarity.
